Garden Checklist

1. Start feeding azalcas right after they bloom Ask your nurseryman for the right type fertilizer. Mulch around the plans with peat, leaf mold or one of the commercial shredded bark products. Don't bury the crown of the plant with the mulch.

2. Chrysanthemum plants are available at your nursery now. Choose among the new varieties for long season of bloom and set them out in loose, rich

3. Set out new plants of hydrangeas for a spectacular show in a shady spot. Feed established plants

4. Continue to set out the perennial vegetables artichokes, asparagus and rhubarb. Nurseries also have fiat-grown plants of broccoli, cabbage and caul-

5. Plant day lilies in any good garden soil. They'll grow in sun or part shade. You can count on them for garden color in the summer's hottest
